

The focus on the employability/ entrepreneurship/ skill development of the courses offered by the Department of Mathematics

Course Title	Course Code	Scope of employability/ entrepreneurship/ skill development
Abstract Algebra	MATH -101C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Real Analysis and Measure Theory	MATH -102C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Classical Mechanics	MATH -103C	Enhances skills to solve real world mechanical and dynamical problems.
Ordinary and Partial Differential Equations	MATH -104C	Enhances computational skills to solve real world problems.
Complex Analysis	MATH -201C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Linear Algebra	MATH -202C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Continuum Mechanics	MATH -203C	Enhances skills to solve real world mechanical and dynamical problems.
Functional Analysis	MATH -204C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Topology	MATH -301C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Numerical Analysis with Computer Applications-I	MATH -302C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Graph Theory	MATH -303C	Enhances social and digital networking skills.
Integral Transform and Integral Equations	MATH -401C	Enhances computational skills to solve real world problems.
Numerical Analysis with Computer Applications-II	MATH -402C	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Probability and Statistics	MATH -301E	Enhances data scientific skills.
Operations Research	MATH -302E	Enhances modeling skills of the real world problems.
Fuzzy Set Theory and Applications	MATH -303E	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.

 Associate Professor & HOD
 Department of Mathematics
 MB University, Agartala.

Nonlinear Dynamics	MATH -304E	Increases knowledge and skills on various computer applications and software packages, Enhances modeling skills of the real world problems.
Mathematical Elasticity	MATH -305E	Enhances skills to solve real world mechanical and dynamical problems.
Fluid Dynamics	MATH -306E	Enhances skills to solve real world mechanical and dynamical problems.
Discrete Mathematics	MATH -401E	Increases knowledge and skills on various computer applications and software packages
Advanced Operations Research	MATH -402E	Increases knowledge and skills on various computer applications and software packages, Enhances modeling skills of the real world problems.
Fuzzy Topology	MATH -403E	To get success in competitive examinations such as NET, GATE, SET, SLET, UPSC, SPSC etc.
Mathematical Biology	MATH -404E	Enhances modeling skills of the real world problems.
Advanced Mathematical Elasticity	MATH -405E	Enhances skills to solve real world mechanical and dynamical problems.
Advanced Fluid Dynamics	MATH -406E	Enhances skills to solve real world mechanical and dynamical problems.
Project Work	MATH -407E	Hands on experience of project execution and working in a team; enhances presentation skills
Mathematics for Social Sciences	MATH-205OE	Enhances modeling skills of the real world problems.
Foundation Course of Advanced Computer Skills	MATH – 105COE	Increases knowledge and skills on various computer applications and software packages
National Service Scheme	NSS-201OE	Enhances team working skills, communication skills, and life skills.

The focus on the Employability/ Entrepreneurship/ Skill Development of the courses offered by the Department of Library and Information Science

BLISc

Course Code	Course Title	Remarks	Career after BLISc
BLIS 101	Foundations of Library and Information Science	To understand the basic of Library and Information Science.	Library Attendant, Library Assistant, Semi-Professional Assistant, Application Specialist, Consultant/ Reference Librarian, Record Manager, Indexer, Souter, Archivist, School Librarian, College Librarian, Library Professional job in various types of libraries, Bank Librarian, etc.
BLIS 102	Library Management	To enable the student to understand the basic concept of management as well as different perspectives with special reference to library.	
BLIS 103	Knowledge Organization: Classification (Theory)	To make the students understand the theoretical aspects of Knowledge Organization.	
BLIS 104	Knowledge Organization: Classification (Practice)	To enable students to classify the subject matters.	
BLIS 105	Field Work and Literature Survey	To know practical knowledge of Library System	
BLIS 201	Knowledge Organization: Cataloguing (Theory)	To enable the student to understand the basic principles and functions of library cataloguing.	
BLIS 202	Basic of ICT (Theory)	To know about the fundamentals of computer and its application in libraries	
BLIS 204	Knowledge Organization: Cataloguing (Practice)	To do hands on practice of Library Cataloguing of books as well as non book materials	
BLIS 205	Computer Skills	To know hand on practices on basis of Computer

The focus on the employability/ entrepreneurship/ skill development of the Courses offered in the Department of History

Name of the Course	Course Code	Employability Scope
Historiography	HIST-101 (CC-I)	Provides knowledge about theories of History and techniques of Historical Research, relationship of History with other disciplines and helps in the preparation of Civil services, teaching jobs and other competitive examinations. It also provides the scope of being appointed as archivist, archaeologist and curator.
Ancient Societies	HIST-102 (CC-II)	Provides knowledge about the first urbanization in Human History, Iron Age Civilization in India and helps in the preparation of Civil services, teaching jobs and other competitive examinations and the scope of being appointed archaeologist.
Feudalism	HIST-103 (CC-III)	Provides knowledge about feudalism in Europe, India and Northeast India and helps in the preparation of Civil services, teaching jobs and other competitive examinations, scope of being appointed as writer and academic researcher, editor, editorial assistant
Capitalism and Imperialism	HIST-104 (DSE-I)	Provides knowledge about theories and practice of capitalism and imperialism and helps in the preparation of Civil services, teaching jobs and other competitive examinations, scope of being appointed as writer and academic researcher, editor, editorial assistant
Post Independent India	HIST-104-(DSE-I)	Provides knowledge about contemporary history of India, economic development and India's foreign policy in post independent India and helps in the preparation of Civil services, teaching jobs and other competitive examinations, scope of being appointed as academic researcher.
Nationalism	HIST-201 (CC-IV)	Provides knowledge about the theories of nationalism and helps in the preparation of Civil services, teaching jobs and other competitive examinations
Economic History of Colonial India	HIST-203 (CC-VI)	Provides knowledge about Indian economy of 18th century, land tenures and commercialization of agriculture in colonial India and helps in the preparation of Civil services, teaching jobs and other competitive examinations
M. K. Gandhi and India	HIST-204 (OE)	Provides knowledge about Gandhian philosophy and contemporary relevance and impact Gandhi and helps in the preparation of Civil services, teaching jobs and

		other competitive examinations and the scope of being appointed in various Government departments/agencies, NGOs and other institutes which are engaged in rural transformation.
Socio-Political History of Europe (1870-1945)	HIST-301 (CC-VII)	Provides knowledge about socio-political developments of Europe between 1870-1945 and helps in the preparation of Civil services, teaching jobs and other competitive examinations
Contemporary World (1945-1991)	HIST-302 (CC-VIII)	Provides knowledge about post world war reconstructions and global associations and their functioning and helps in the preparation of Civil services, teaching jobs and other competitive examinations and provides the scope of being appointed political analyst, foreign embassies as office staff, translator.
Socio-Economic History of Northeast India	HIST-303 (CC-IX)	Provides knowledge about pre-colonial societies in Northeast India and helps in the preparation of Civil services, teaching jobs and other competitive examinations
Basic Computer Skills	HIST-304 (CE)	Increases knowledge and skills on various computer applications and software packages and helps to take the profession of computer technician, web developer etc.
Indian Nationalism	HIST-401(CC-X)	Provides knowledge about historiography of the national movement and the origin of Indian nationalism and helps in the preparation of Civil services, teaching jobs and other competitive examinations

**The focus on the employability/ entrepreneurship/ skill development of the Courses offered
in Integrated Master Degree in Chemistry**

Name of the Course	Course Code	Scope of employment
Inorganic Chemistry-I-VIII	(CC-I), CC-V, CC-IX, XII, ICH 701C, 801C, 901	Chemist, Junior Scientist, Assistant Professor, Researcher in diverse range of sectors ranging from private to government institutions.
Physical Chemistry-I- VIII	CC-II, IV, VIII, XI, XIV, 702C, 802C, 902C	Graduates in physical chemistry can find employment in various fields including academia, government, industry, research and development.
Organic Chemistry-I-VIII	CC-III, -VI, VII, X, XIII, 703C, 804C, 901C	Organic Chemistry Professor, Food Scientist, Analytical Chemist, Material Scientist, Pharmacologist in both public and private sectors.
Analytical Chemistry	SEC-II	Analytical Chemists are employed in all aspects of chemical research in industry, academia and government organizations.
Industrial Chemistry	DSE-III	Industrial Chemists create and manufacture items and methods that boost the company's sales. They are employable as academic researcher, toxicologist, pharmacologist in government and private organizations.
Environmental Chemistry	DSE-IV	Provides the scope of being appointed as environmental chemist, industrial ecologist, climate change analyst, environmental auditor
Basic Statistics and Computer Skills	ICH705 E (DSE-05)	Employable as data entry operator, marketing executive, statistical analyst, business analyst, database administrator
Supra molecular and Nano Chemistry	ICH 102E (DSE 08)	Candidates with Nano Chemistry are in great demand both in India and abroad in many scientific institutions
Medicinal Chemistry and Forensic Science	ICH 1003 E D(SE--09)	Employable as forensic scientist in forensic labs, biomedical scientist, toxicologist, medicinal chemists in the pharmaceutical, biopharmaceutical and biotech industries

 05/02/2024
 Head, IMD Chemistry

The focus on the employability/ entrepreneurship/ skill development of the Courses offered in Integrated Master Degree in Commerce

Name of the Course	Course Code	Employability Scope
Financial Accounting	CC-1	Business development manager, data analyst, economist, management consultant, finance and accounting officer both in the public and private sector
Principles of Management	CC-2	The course deals with financial planning, accounting and strategizing plans for profitable growth of the organization. Candidates with financial management course are employable as financial planner, financial manager, financial analyst, financial auditor, investment banking analyst, accountant, investor relations associate in both public and private sector
Micro Economics	GE-2	The course deals with the study of individuals, households and firm's behaviour in decision making and allocation of resources. It provides better career prospects as data analyst, financial economist for public and private sector organization, economics editor in print and electronic medias, teaching profession in academia.
Cost Accounting	CC-3	It is a specialized area of accounting that helps the organizations to understand the costs associated with specific business functions. Candidates with cost accounting course have better career prospects as cost accountant, budget analyst, and cost estimator in public and private institutions.
Business Statistics	CC-4	Candidates with business statistics can pursue a wide range of careers in business, finance and operational management as financial analyst, cost estimator, business analyst, market researcher, database administrator etc.
Macro Economics	GE-4	The course deals with the performance of economics- change in economic output, inflation, interest and foreign exchange rate and the balance of payment and helps candidate with macroeconomics to avail good career opportunities in academia, economist, personal financial advisor, supply chain analyst, business reporter, economic consultant, product manager, quantitative analyst

Business Mathematics	CC-6	Business mathematicians help commercial enterprises to record and manage business operations. It provides employment scope as financial analyst, quantitative analyst, pricing analyst, internal auditor, market risk manager, asset/liability manager, credit risk manager in public and private organizations
Principles of Banking	GE-6	The course deals with asset liability management, liquidity risk, internal transfer pricing, capital management and stress testing and helps candidates to be employed as bank officer, investment banking associate, auditor, accountant, credit analyst, brokers system analyst, financial advisor, wealth manager etc.
Corporate Accounting	CC-7	Candidates with corporate accounting course can opt career as general accountant, internal auditor, financial analyst, treasury accountant who help organization in book keeping tasks, evaluating investments, performing audits and helping directly the organization to have a better financial future,
Management Accounting	CC-9	It provides job opportunities as financial analyst, accounting manager, data analyst, strategic manager/director, controllers and chief financial officers who can influence the decision making process and business strategy, making a real impact on the future of the organization
Accounting Theory	CC-12	Accounting theory helps in preparation and adherence income tax and the economic laws and helps candidates to be employed as auditor, tax examiner and revenue agent, management accountant, financial accountant, tax accountant, financial analyst
Human Resource Management	CC-14	Human resource management deals with applicable employment regulations and helps create a corporate culture and provides job opportunities as training manager, benefits manager, human resource manager, payroll specialist in companies
Advanced Corporate Accounting	CC-17	Candidates with corporate accounting course can opt career as general accountant, internal auditor, financial analyst, treasury accountant who help organization in book keeping tasks, evaluating investments, performing audits and helping directly the organization to have a better financial future
